

## A STAR-SHAPED QUILTING DESIGN OPENS SERIES.

(Clip and Save.)

In response to the many requests for quilting designs, The Star will run a number of popular and modern designs. Some will be complete figures for each quilt block and others of all-over or larger design. The first of these is rather intricate, but very pretty star design. This design is made in actual size and is suitable for a small block quilt. Trace the dotted lines.
