

CRAZY ANNE IS AN OLD-TIME PATTERN.

This futuristic pattern is so prophetic of the latest trend in decorative design as to be quite startling, yet it is one of our great-grandmother's favorites. While three colors are shown above, two are equally interesting and give an entirely different effect. This is not a difficult block to piece as the rows are so well defined and the edges straight. It is twelve inches square and will be alternated with plain blocks of the same size. No seams are allowed.
